

Conventions

Commit Messages

Conventional Commits (`fix:`, `feat:`, `BREAKING CHANGE:`) — triggers semantic versioning and Docker image builds.

Formatting

- **Jsonnet:** `jsonnetfmt --string-style s -n 2` (enforced by CI)
- **Shell:** `shfmt -i 2 -ci` (enforced by CI)

Naming

- **Dashboards:** `<name>.dashboard.jsonnet` in `dashboards/<folder>/`
- **Shared dashboards:** `.shared.jsonnet` extension for multi-dashboard files
- **Protected dashboards:** Add protected label or list in `protected-grafana-dashboards.jsonnet`

Testing

Jsonnet Unit Tests

Same directory as source, with `_test.jsonnet` suffix:

- `services/stages.libsonnet -> services/stages_test.jsonnet`

RSpec Integration Tests

Mirror directory structure under `spec/`, with `_spec.rb` suffix:

- `libsonnet/toolinglinks/grafana.libsonnet -> spec/libsonnet/toolinglinks/grafana_spec.rb`
